Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Friday 01 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Cold with overnight frost, icy patches and wintry showers.

This Evening and Tonight:
Staying rather cloudy over southeast England and East Anglia. Elsewhere clear spells along with frost and patchy ice forming. Wintry showers continuing to affect the north and coastal areas exposed to the northerly wind. Breezy in the north and east.

Saturday:
Variable cloud and wintry showers, these most frequent in the north and east. Best of any sunshine in the west. Some patchy rain or sleet affecting the Midlands later. Cold.

Outlook for Sunday to Tuesday:
Wintry showers across the east and rain in parts of the south. Far north mainly dry. Severe overnight frosts in parts of the northwest. Strong winds developing in the south.
